

CSA Enforcement Program

CSA National Rollout Planned

FMCSA's Comprehensive Safety Analysis (CSA) 2010 initiative is planned to be in effect soon for all states - not just pilot states. This enforcement initiative scores motor carriers and drivers on seven Behavior Analysis Safety Improvement Categories (BASICS) and results in [interventions](#) against the worst safety performers.

FMCSA plans to replace SafeStat with the new Carrier Safety Management System (CSMS) and will be ...

- Implementing a revised Inspection Selection System for roadside inspectors based on CSMS
- Sending out warning letters to all carriers performing poorly in one or more BASICS
